Several drawings during the European Physical Society Conference on High Energy Physics (22–29 July 2015) activity are performed and presented here together with the drawings from Vienna city made in last few years. Also the Higgs boson, seen by the eye of the artist, is presented here by the sculpture from glass and metals. The autor will illustrate the connection of the science and arts. Both „drink the water from the sea of phantasy, which helps them to come to finest ideas.” One helps to other and together bring better understanding in human society.

Lyrics to:

**Just The Two Of Us**

I see the crystal raindrops fall
And see the beauty of it all
Is when the sun comes shining trough
To make those rainbows in my mind
When I think of you some time
And I want to spend some time with you

Just the two of us
We can make it if we try
Just the two of us
You and I

We look for love, no time for tears
Wastes water’s all that is
And it don’t make no flowers grow
And things might come to those who wait
Not to those who wait too late
We got to go for all we know

Just the two of us
We can make it if we try
Just the two of us
You and I

I hear the crystal raindrops fall
On the window in the hall
And when your eyes are down the line
Daring when the morning dawn
And I see the morning sun
Want to be the one with you

Just the two of us
We can make it if we try
Just the two of us
You and I

Just the two of us
Just the two of us
Just the two of us

I want to be the one with you
You and I

JUST THE TWO OF US

Pater noster, qui es in caelis; sanctificetur nomen tuum; adveniat regnum tuum; fiat volúntas tua, sicut in caelo, et in terra. Panem nostrum cottiñámum da nobis hódie; et dimítte nobis débita nostra, sicut et nos dimíttimus débitóribus nostris; et ne nos inducas in tentationem; sed libera nos a malo.
