

Including Open Access Information in institutional repositories

Gernot Deinzer (0000-002-7462-3847)¹, Alexander Wagner (0000-0001-9846-5516)²,
Christoph Broschinski³, and Dirk Pieper (0000-0002-6083-9348)³
¹Universität Regensburg, ²DESY Hamburg, ³Universität Bielefeld

Repositories offer not only publications but also the publication's metadata, which can easily be used for further processing. At the University Library of Regensburg and within the project JOIN2 the management of article processing charges (APCs) is integrated into its institutional repository. In addition, we have developed a XML-based format including cost information in the OAI-PMH interface. The OpenAPC initiative by the University Library of Bielefeld harvests the information and releases datasets of the fees paid for Open Access.

Publication Server (Regensburg)

How is the fulltext of the article published OA in the repository

Open Access Type

- Gold (with APC)
- Gold (without APC)
- Gold (Open Library of Humanities)
- eCOADS
- Hybrid Open Access
- Offsetting Deal
- RSC-Voucher
- Alliance/National licence
- 538 Absatz 2 German Copyright Law

Administrative Information

Costs:			
Total Costs:			
Amount covered by library:			
Paid date:	Year:	Month:	Day:
			
Period:			
Transaction Number:	1.		
	2.		
	3.		
			
			
Finance Project:			
Pre Payment:	UNspecified Yes No		
Fund:	UNspecified DFG Universität Keine		
APC budget:	UNspecified Universitt Klinikum Andere		

Information about the payment process, e.g. transaction number, prepayment, financing project or divided costs to have the possibility of detailed monitoring

Invoice Information

Invoice Details		
Amount in original currency:	Amount	Currency 
		UNSPECIFIED 
Invoice number:		
Article Reference:		

Identifier of the invoice to find easily an article to a specific payment

JOIN2 (e.g. DESY)

The screenshot shows the PDBsum 1.0.0 website. At the top, there's a navigation bar with links: Home, About, Contact, Help, Search, Links. Below this, the PDBsum logo is displayed. The main content area features a 'New release' section with a 'Download' button and a 'New release' section with a 'Download' button. The page also includes a 'PDBsum 1.0.0' section with a 'Download' button and a 'PDBsum 1.0.0' section with a 'Download' button.
