The authors regret to report that an error was discovered on page 9 of the manuscript in an equation defining the normalized centrosymmetry parameter (nCSP). The correct form of the equation is:

$$\text{nCSP} = \frac{1}{Nd^2} \sum_{i=1}^{N/2} |\mathbf{r}_i + \mathbf{r}_{i+N/2}|^2.$$

Please note that the correction does not affect the experimental results and conclusions. The authors would like to apologise for any inconvenience caused.
